The Official News Letter of Indian Orthodontic Society

*Indian Orthodontic Society
Wishes Members, Friends and Families
a Wonderful New Year 2022*

President's Message

Happy New Year to Dear Friends and Respected Seniors of Indian Orthodontic Society. I wish and pray that year 2022 gives us Pink Heath, Happiness and Prosperity.

With the surge in the number of Cases of CoVID, let's exercise extreme caution, care and self-protection. Please stay safe and cautious.

IOS had a productive and active month of December 2021. It took an excellent start with the Scientific Confluence of two elite Dental Specialities of India. The combined IOS-AOMSI programme on December 3rd 2021, at the Conference of Association of Oral & Maxillofacial Surgery, Mangalore had areas of common interest such as OGS and Cleft. Speakers from both specialities contributed immensely for an excellent Scientific and Clinical insight.

Exordium- PG Orientation program was organised on December 13th & 14th by Narayana Dental College & Hospital, Nellore. On behalf of IOS I extend my congratulations and wishes to team Narayana Dental College for their wonderful Organisation of the event. The Head and Organizing Chairman Dr Mandava Prasad, Organizing Secretary Dr Vivek Reddy and Scientific Chairman Dr Gowri Shankar gave a wonderful program with their dedicated team. The fresh postgraduates all around the country, gained a perfect insight, motivation and orientation from the galaxy of expert speakers. Feedbacks stated that even senior postgraduates and faculties participated along the freshers and gained immense knowledge.

The second Executive Meeting of IOS was held in Visakhapatnam on 19th December 2021. I am glad and privileged to host the executive committee in my home town. There was excellent attendance from the entire Executive Committee. The team showed active participation in the meeting, as the agendas were discussed in great depth. The outcome of the meeting were productive and met the needs of the hour. The minutes of the meeting would be shared among members once the office of Secretary releases it, in few more days.

Indian Orthodontic Society, thanks and appreciate Dental Council of India for taking an iron hand against the nuances of private companies delivering direct to consumer aligners. We are proud and happy for the respect and serious consideration DCI gave for our representation, which happened few weeks back. The decision and order was well timed as the crux of the problem was hitting its peaks. We reckon that this DCI order is a strong start of an effective clean-up process.

Indian Orthodontic Society is proud of our senior members Lt Gen Sanjay Londhe PVSM, SM (Retd) as he received the "Highest Distinguished Service Award For Armed Forces" from The President Of India and Dr Tulika Tripathi, as she was Conferred "General Officer Commanding-In-Chief Card, for Commitment to Higher Dental Education in Army Dental Corps". We are glad to extend our appreciation and congratulations, as we honour them in this issue of IOS Times.

I wish you a Wonderful New Year "2022 again. We would have a superb start of the New Year with a busy month of January '22. Members can look forward for

- Our IOS-Our Member
- "The IOS PG Orientation Program" from J.N Kapoor D.A.V Dental College, Haryana
- IOS Orthodontic Premiere League Cricket Tournament, Chennai on 27th and 28th January '22
- Friday Rendezvous on 28th January '22

We look forward for extensive participation from member for all the January '22 IOS programs.

**THIS YEAR, BE STRUCTURED ENOUGH FOR SUCCESS AND ACHIEVEMENT
AND FLEXIBLE ENOUGH FOR CREATIVITY AND FUN. -TAYLOR.**

Stay Safe and Take Care

Jai IOS

Jai Hind

Dr SriKrishna Chalasani

President

Indian Orthodontic Society

Hon. Secretary's Message

Dear members of the IOS,

As 2021 draws to a close, it gives us an opportunity to look back, take stock and move forwards with positivity and renewed enthusiasm.

The last year has not been without its challenges but has also given us reason to be grateful as 2021 emerged from 2020 with a slow return to normalcy specially as regards the COVID pandemic. We now see more people travelling and more programmes and meetings being conducted onsite and offline.

As we look back on the last IOS year, I thank team 2019-21 headed by Dr. Silju Mathew for the excellent work done in the last year. Thanks are also due to the organizers of the 55th IOC who put together a great virtual conference. The new team has taken over in September of last year under the leadership of Dr. Srikrishna Chalasani. Some of the old hands continue to serve with several new members of the team to ensure continuity and fresh enthusiasm for the work to go on. The executive committee met in Vizag on 19th December and had fruitful deliberations on many topics.

December saw the 45th AOMFSI conference conducted in Mangalore with an exclusive interdisciplinary session conducted with Indian Orthodontic Society. Many eminent speakers from both disciplines contributed to the academic extravaganza that this event turned out to be.

The first IOS PG orientation programme for this society year was conducted online and organized by Narayana Dental College, Nellore. Numerous other study group programmes were also conducted.

The society and our profession has faced new challenges with companies that offer direct to consumer treatment. The IOS is approaching this issue on all fronts and trying to meet this challenge. The unequivocal public notice issued by the DCI in response to our representation cracks the whip on "at home treatment" and at "home scans" by non dentists without proper clinical examination, tests and mandatory diagnosis and treatment planning done by a qualified registered professional.

On the eve of this new year, Team IOS along with tidings of Joy for the New Year also brings you the official launch of the team's new initiative "Our IOS, Our Member". As the society grows in size, this initiative is to bridge the gap and reach out individually to all members of our society. A designated EC member will be in touch personally to appraise members about the various activities/schemes of the society and will also help to troubleshoot any issues faced. Details of this will reach you soon.

In the words of David Bowie – "I don't know where I'm going from here, but I promise it won't be boring"; And that is certainly true of Indian Orthodontic Society.

Wishing you all a very healthy and Happy New year !

Dr. Sridevi Padmanabhan

Hon. Secretary, IOS

Editor's Message

Respected Senior Members and Friends from Indian Orthodontic Society.

We, team IOSTimes, Wish you all a Splendid and a Wonderful New Year 2022.

Team IOS Times was on toes to cover all the activities for the last month of year 2021. December'21 was proactive with lots of events from the Head office and various Study Groups.

December took an excellent start with the Scientific Confluence of two elite Dental Specialities of India. We covered the combined IOS-AOMSI programme on December 3rd 2021. The Conference of Association of Oral & Maxillofacial Surgery had areas of common interest such as OGS and Cleft and it took scientific highlight with speakers from both specialities.

We are glad to cover Exordium- PG Orientation program, which was organised with Class and Grandeur on December 13th & 14th by Narayana Dental College & Hospital, Nellore. The Head and Organizing Chairman Dr Mandava Prasad, Organizing Secretary Dr Vivek Reddy and Scientific Chairman Dr Gowri Shankar gave an excellent show, with an array of Expert speakers from IOS.

Next on Line, we had to cover the second Executive Meeting of IOS, which was held in Visakhapatnam on 19th December 2021. The EC team showed active participation in the meeting, as the agendas were discussed in great depth. We are awaiting for the minutes of the meeting, which would be shared among members through next issue, once the office of Secretary releases it.

Indian Orthodontic Society is proud of our senior members Lt Gen Sanjay Londhe PVSM, SM (Retd) as he received the "HIGHEST DISTINGUISHED SERVICE AWARD FOR ARMED FORCES"

From the PRESIDENT OF INDIA and Dr Tulika Tripathi as she was Conferred

"General Officer Commanding-In-Chief Card, for Commitment to Higher Dental Education in Army Dental Corps". IOSTimes is proud to cover their achievements and the interview in this issue of IOSTimes.

December showed some active activity from various Study Groups like, Bhubaneswar Orthodontic Study Group, Banaras Orthodontic Study Group and Madras Orthodontic Study Group. We are glad to cover all these events.

Hope you enjoy the last Issue for the Year 2021.

Stay Safe and Take Care

45th AOMFSI session in collaboration with IOS

IOS Speakers deliver at the Conference of Association of Oral & Maxillofacial Surgery, Mangalore, December 3rd, 2021

Reported By **Ankit Sikri**, Section Editor

The 45th annual conference of the Association of Maxillofacial surgeons of India was held in Mangalore on 2nd - 4th December 2021. A unique feature of this conference was the special session in association with the Indian Orthodontic Society held on 3rd December. The President and Hon. Secretaries of both the societies [AOMFSI represented by Dr.M.Veerabahu and Dr.Pritham Shetty] and IOS [represented by Dr.Srikrishna Chalasani and Dr.Sridevi Padmanabhan] along with the Organizing Chairman Dr.Mustafa Khader, Organizing Secretary, Dr.Manjunath Rai of the 45th AOMFSI flagged off the interdisciplinary meet in a glittering inauguration. Dr.Krishna Nayak, Dean – A.B. Shetty Memorial Institute of Dental Sciences, presided over the function as the chief guest for the occasion.

The inauguration was graced by Dr. Srikrishna Chalasani [President, Indian Orthodontic Society] and Dr. Sridevi Padmanabhan [Honorary Secretary]. The dignitaries addressed the august gathering along with the AOMSI office bearers present there. The President and Secretary laid the emphasis on how crucial it is to have a composite outlook on the management of malocclusion and not to stay compartmentalized within the respective domains.

Honorary Secretary, Dr. Sridevi Padmanabhan was also the part of an interesting debate on 'Academics vs Private Practice'. A galaxy of Orthodontists descended towards Mangalore and delivered their lectures. All of the delegates were left hoping that this kind of interdisciplinary interaction should turn into a regular feature of conferences. The positive interactions between the delegates of both the specialties made this conference unique, rejuvenating and a great scientific feast.

The scientific session saw many eminent speakers from the IOS and the AOMFSI and a panel discussion that was attended by many members of both the fraternities. The exchange of knowledge and ideas between both the specialties was a welcome step towards mutual collaboration and growth. The Indian Orthodontic Society places on record its appreciation to the office bearers, organizing team and members of AOMFSI for the opportunity to collaborate and for the gracious hospitality.

The combined IOS-AOMSI programme on December 3rd 2021, at the Conference of Association of Oral & Maxillofacial Surgery, Mangalore had areas of common interest such as OGS and Cleft. Speakers from both specialties contributed immensely for an excellent Scientific and Clinical insight

2ND EC MEETING 2020 21

of Indian Orthodontic Society

19th December 2021, Sunday

Visakapatnam

Reported by Chief Editor, Dr Kannan

The faculty of Department of Orthodontics and Dentofacial Orthopaedics, Narayana Dental College, Nellore, had organized this orientation program, for the fresh batch of first Year MDS students admitted into the course.

Organising committee

Dr. Mandava Prasad, Organising Chairman, Dr. Vivek Reddy, Organising secretary, Dr. Gowri sankar, Chairman-scientific session, and Dr. Aparna.K, Registration committee.

No. of Registrations: 600
No. of sessions: 8
No. of Guest Lectures: 17
No. of Chairpersons:8

Exordium 2021

A two days National PG Orientation Program was hosted by Department of Orthodontics and Dentofacial Orthopaedics, Narayana Dental College, Nellore, Andhra Pradesh under the auspices of Indian Orthodontic Society. The program was designed under the aegis of IOS to provide an insight of every aspect of the course curriculum to a neophyte post graduate orthodontic student. This podium which was held on IOS webinar platform was meant as an interactive session for the newly admitted Post Graduate program in Orthodontics across the nation to introduce and understand various elements encompassing the three-year course study. The theme of the Program was titled "Exordium" meaning the introductory part of a discourse or composition.

Inaugural session- 13th December 2021

The program was started with a formal inauguration meeting with the gracious presence of Prof Dr.SriKrishna Chalasani, President of the Indian Orthodontic Society, Prof Dr. Sarabjeet singh, Vice-president, IOS, Prof Dr.Sridevi Padmanabhan, Hon. Secretary of the the IOS, Prof Dr. Ajay Reginald, Principal, Narayana Dental college. There was a prayer song by Students of Narayana Dental college dedicated to the Lord Ganesha and Saraswathi. Before the proceedings, the chairman of the Organising committee, Dr. Mandava Prasad paid Homage to the recently departed Ex-president of IOS, Dr.K. Gangadhara prasad and a two minutes silence was observed as a mark of respect to the departed leader. President welcomed all the students into the profession of orthodontics pointed out that these kinds of programs motivate and boost the morale of the students. Vice-president welcomed the student delegates and they very fortunate to have guiding sessions like this and should fully utilise this knowledgeable session. Sridevi Padmanabhan, Hon.secretary, emphasized the importance and benefits of membership to the students. The student membership helps the students to associate with the senior members of the profession and learn from them. Joining a professional organization is critical in keeping abreast of the latest knowledge and practices locally and globally. It helps the professional to stay abreast of current issues and opportunities and will also assist in personal advancement for the member who becomes involved. The principal of the Narayana Dental college applauded the efforts of IOS in conducting such programs and that it provides a role model for the other branches to follow.

Scientific sessions- 13th and 14th December 2021

The scientific program designed was spread over two days with a total of eight sessions and seventeen lectures. There was a Galaxy of stalwarts from various Universities and eminent IOS Members as Speakers. They delivered and shared their expertise on various aspects of Orthodontic PG Curriculum

Scientific program- 13th Dec

On the first day of the program, there were 4 sessions with 8 speakers. Each of the sessions were chaired individually by Prof Dr. Siddharth Shetty, Prof Dr. Prasad Konda, Prof Dr. Nillan Shetty, and Prof Dr. Ankit Sikri.

Prof Dr. Puneet Batra in his opening speech titled 'A journey of three years', gave an insight of various clinical, academic and scientific tasks and assignments that has to be completed by a student in his/her three years of study. This was followed by a presentation from HC . Kiran kumar about the importance of preclinical work in the PG curriculum.

The second session of the day had a discourse by Prof Dr. Jayesh Rahelkar on the subject of "clinical examination". Prof Dr. A. Rakesh Rao discussed the importance of learning the theory vis-a vis and adapting into clinical examination and vice-versa.

In third session of the day, the speaker Prof Dr. Vignesh kailasam presented the common pit falls in writing a scientific literature and suggested few methods to overcome this. In the next disquisition, Professor Kuldeep D'mello through his lens took the students to the world of photography.

In the final session of day 1, Asso Prof Dr. Harneet kaur expatiated elaborately on conducting a literature search. The last oration was given by Prof Dr. Raj Vikram regarding the selection of the method of experimental study for thesis.

Scientific program- 14th Dec

The second and last day of the programme was chaired by Prof Dr. Shailesh shenwa, Prof Dr. MS Kannan, Prof Dr. Uday kumar Digumarthi, and Prof Dr. Amesh kumar Golwara.

Prof Dr. T.P. charurvedhi, in his presentation of the beginning session on the second day emphasized the application of evidence-based treatment plans based on systematic reviews. The next orientation of Prof Dr. Toshniwal NG

stressed the importance of the knowledge of Legal jurisprudence and Ethics. He addressed the newly admitted students and advised them not to be unethical in their profession. Students must follow the ethics of this noble profession and they must work very hard to achieve excellence. The second session saw Prof Dr. Gaurav Gupta effectively presented the way of delivering a productive seminar. This was followed by an energetic lecture by Prof Dr. Abhay Kumar Jain on the modus operandi of Journal club presentations.

In the penultimate session, the orientation by Prof Dr. Vivek Reddy high lightened the importance of record making, taking and keeping. In her discourse, Prof Dr. Tarulatha Shyagali effectively communicated with the students on the topic of communication skills and made them aware of importance in delivering an effective and precise information to the patients.

In the Ultimate session, Prof Dr. Sonahita Agarwal spoke about the protocols to be followed while preparing the thesis. In the next speech on the importance of the conferences and CDE programmes, the speaker Prof Dr. Ajay Kubavat has sent right message that if you won't change accordingly with latest developments, the patient will change you for another doctor for his treatment. The peroration by Prof Dr. Amanish singh shinh suggested the students about the methods to overcome some of the problems faced by students by effective time management. The lively interaction with the students after each presentation and moderation by the chairpersons brought a glitter and silver lining to the sessions.

Valedictory function—14th December

The valedictory function was held on 14th December after conclusion of the scientific session. Prof. Dr. Sivakumar Nuvulla, Dean of Narayana Dental College, thanked the IOS for providing an opportunity for the College to host this programme. In the concluding speech president and Hon. Secretary appreciated the organising team for successful conduction of this program. The appreciation certificates were presented to the student members of the organising committee. The organising proceedings and vote of thanks was carried out by the Organising secretary G. Vivek Reddy.

A total number of 610 delegates registered for this programme including some life members. The speakers and chairpersons were given e-certificates and the physical form of the certificates were sent by couriers. The SLM of the IOS who were registered as delegates were presented with e-certificates.

RULES & REGULATIONS

- This is a mini cricket format. Wicket to Wicket being 22 yards, and boundary radius being 25 meters. Throwing line for female bowler at 15 meters.
- Cricket match will be played between two teams made up of eight players in each team.
- The playing Eight should consist of 6 Male Players + 2 Female Players .
- Among eight players two life members are compulsory.
- Only Orthodontists and students pursuing post-graduation in Orthodontics can play.
- All matches will be played using tennis ball.
- Matches will be played IN DOUBLE INNINGS FORMAT with 5 balls per over.
- I INNINGS- 5 overs.
- II INNINGS- 3 overs
- Each team should bowl 5 overs in the first innings.
- 1 over female – Throw/Bowling.
- 4 overs male – Bowling only.
- Each team should bowl 3 overs in the second innings.
- 1 over female – Throw/bowling.
- 2 overs male – Bowling only.
- Batting should be opened by a Male player and a Female player only in the first innings & any team member can bat in the second innings.
- Hit Wicket is considered Not Out for a female player.
- Batsman who hits the cricket ball outside the boundary (Full toss) is considered OUT.
- If the ball hits the cones, placed around the boundary full toss, it is considered OUT.
- When a Female Player is batting, the bowler is allowed to throw the cricket ball (over arm only).
- Each player can bowl only one over per innings (Unless super over).
- Bowlers are not allowed to bowl fast to the female batsman, and if the female batsman appeals for a fast delivery, or if otherwise, the umpires can signal a dead ball, for a fast delivery bowled to a female batsman.
- The ball can pitch a maximum of two times on the pitch, for a female who is bowling, and only once for a male, failing which it is declared a Dead Ball.
- Chucking is strictly not allowed by male bowlers for male batsman.
- Batsman has the right to appeal against chucking.
- No-ball will attract one run (over stepping, bouncer) however there is No FREE HIT
- Bowler shall not be allowed to bowl over the head bouncer. Bouncer : A ball which passes or would have passed above the shoulder height of the striker standing upright at the popping crease or full toss bowled above the waist height will be considered as a No-Ball.
- Any number of bouncers in an over is considered as a No-Ball.
- Stepping on a side crease, during bowling is a No-Ball.
- If the batsman hits the cricket ball outside the boundary (full toss) during a no ball being bowled is considered as Five Runs(four runs + one run for a no-ball) and the batsman is considered not out, However if the ball pitches and then leaves the boundary, it is considered as Five Runs(four runs + one run for a no-ball)

- No substitute runners are allowed.
- Mankading is allowed. “The bowler is permitted, before entering his delivery stride, to attempt to run out the non-striker. Whether the attempt is successful or not, the ball shall not as one of the over. If the bowler fails in an attempt to run out the non-striker, the umpire shall call and signal Dead ball as soon as possible”.
- No runs will be awarded for wide deliveries but will have to re-bowl that delivery.
- No leg before wicket and leg byes.
- If the ball hits the batsman, i.e if a leg bye, there won't be any run-outs given.
- Runs are awarded for byes and overthrows, including the bye runs that come out through a wide delivery.
- Substitution in fielding is allowed for only 2 players per team at any point of time during play. Only Female player can replace a Female player.
- No Retired Hurt. Unless batsman is injured seriously, and only if the opposition team captain agrees for the same, can take a retired hurt, applicable only for male players.

CAPTAINS RESPONSIBILITY

- Request captains of every team to ensure that one of their representatives will be there with scorer to avoid confusion. If any clarification, please clarify there itself.
- Captains please ensure that your players are ready on time.
- Each team may have to play 5-6 matches per day to finish schedule on time.
- Only captains are requested to talk to umpires for any clarifications.
- After every match, captains are requested to sign on the score sheet and will be informed about the net run rate.
- Captains to ensure their teams playing the next match in each ground are to be present when the previous match is going on, as a toss for the match will be done during the innings break of the previous match.
- If a team fails to report within 15 minutes, of the scheduled / tentative time of the match, the opponent team will get a walk over with 2 points.
- In case of Tie : league and Knock out stages
- 1 over, super over match to be played.
- Only 3 batsmen per team to bat in those two overs.
- If the match is a tie after the tie breaker, match is decided by a Toss.
- If more than one team has same number of points in the league stages, then the team with better run rate qualifies
- If teams have the same run rate also, then the Run Quotient will be calculated.
- Only 5 minutes break/ innings given, so as to finish the tournament on schedule.
- Points are as below :
- Win – 2 points.
- Loss – 0 points.
- In case of rain interruption, match will be continued from where it had stopped (No Rematch)
- Any information regarding the rules, please contact organizers before the match only.
- To apply the law and make sure the cricket rules are upheld throughout the game there are two On field umpires in place during games.
- Umpires are responsible for making decisions and notifying the scorers of these decisions.
- In case of bad light, batsman has the right to stop the play in conjunction with the umpire, however umpires call is final.

UMPIRE'S DECISION IS FINAL.

sanjaylondhe14@gmail.com +91 9049988528

37 years’ chronicle of success as a highly commendable Officer and a driving force for a new era of State-of-the-Art oral care for the Indian Army Dental Corps

Guided by a famous quote by Philip K. Dick - “The true measure of a man is how quickly he can respond to the needs of others and how much of himself he can give.”

Presently looking for a senior leadership role in an organization par excellence to employ Human Resource Management, Strategic Leadership, Facilities Management, Industry Representation, High Level Engagement and as an academician and researcher with expertise to drive forth a culture that fosters a spirit of collaborative growth in the workforce

1. Sir, your about your Childhood and schooling ?

Belong to a middleclass family, father in Maharashtra state government service and mother a housewife. Studied at various places and schools as frequent transfers. Started schooling in a tribal area. We were lucky to have grandparents. Spending time with them was a bliss, and owe good values to them and of course parents.

2. How did you choose dentistry and then orthodontics ?

I am an alumni of Govt Dental College Nagpur. Joined Dental course in 1977. Time of Pvt Dental Colleges had not arrived. Everyone would first try for medical course, so did I. got a seat in Dental college. Liked the course and never looked back after that. Managed to pass every year without break. That time was great. Was always fascinated with orthodontics. Moving teeth through bone and periodontium would always charm me. The change orthodontics would bring in a patient always enchant me. Also the satisfaction of bringing a positive change in their lives was immense. I completed MDS in Orthodontics from AFMC. I am happy to have got a chance to study and practice orthodontics.

3. Let us know about your family?

We are a middle class family. I am second amongst four siblings. All are settled and doing well. Parents managed to give us good education. Wife 'Anuradha' is an educationist, have a daughter 'Gayatri' who is a physiotherapist. Our son in law Lt Col Tushar is a maxillofacial surgeon and is in the Army. We are blessed with two lovely grandchildren Saanvi and Anay. By god's grace all is well.

experience in the service has been more than satisfying. India send a peace keeping force to Srilanka in 1987. I had the opportunity to serve in that mission. It was a difficult time. My daughter was just four months old when I left for Srilanka. Anuradha my wife had to stay back. She managed remarkably well during that time. Our working conditions were not ideal but we managed war casualties, provided dental care to troops as well as local civilians. That experience taught me a lot and showed what courage and valor means. I was satisfied to have performed my duties well.

5. Sir, You are a hero among our fraternity... But who is your own?

You meet so many people through your journey who influence your course of action. I was lucky to have

4. Your working experiences and services?

I joined Army Dental Corps in Apr 1983 as a young Lieutenant. Couple of years after joining I realized that this is where I belong and would like to make a career here. Today I owe everything to this great organization. It gave me an opportunity to serve those who serve my nation. This is a fascinating service which gives you a prospect to excel in every aspect of life. You get professional and administrative experience as well to become a technocrat. As a healthcare provider one gets a lot of professional exposure and also opportunities to enjoy sports and other hobbies. You get a chance to make friends from different parts of the country. You get an opportunity to see all corners of your country. My

interacted with seniors with rich experience. I learnt a lot from them. If I have to name someone as my hero then I undoubtedly would choose a common soldier of Indian Armed Forces. He is giving his life for the country without any expectations. His devotion to duty, honesty, trustworthiness has always inspired me. It encouraged me to do all I could for him and his dependents.

6. Your achievements and the driving force behind your success ?

I was fortunate to get opportunities throughout my career to bring

about improvements in infrastructure, technology, automation, policy and guidelines, ease of working, oral

health care management and so on. It's a continuous process, which one inherits and passes the baton to next incumbent. One learns through experience and exposure to various situations. I commanded a number of Army Dental Centres. Commanding AFDC New Delhi and CMDC Pune was a very inspiring experience. You should be able to cash the opportunity which comes your way to bring about positive changes in

all aspects. I was privileged to get such a prospect as I held important appointments like DDG and Addl Dir Gen at Directorate General finally retiring as Dir Gen Dental Services Indian Armed Forces. I

made full use of it to guide Army Dental Corps on the path of modernization, automation, and to deliver best possible oral health care. I believe that the organization would reap a rich harvest of the efforts put in by the entire team in times to come.

Anuradha has always inspired me to give in more than hundred percent to achieve what I aspired for. She looked after the home front and allowed me to have all the time to pursue my dreams.

7. Your message to the young and budding orthodontists ?

You have chosen this specialty so give in your best. Understand and work within the physiologic limitations to deliver best possible care. Keep pace with technology, innovate and invent to take Orthodontic care to greater heights. Strive to make orthodontic care available, accessible and affordable to all.

*Indian Orthodontic Society,
Congratulates
Senior IOS Member*

Dr Tulika Tripathi

*Senior Professor & Head of Orthodontics,
Maulana Azad Institute of Dental Sciences,
New Delhi*

*as she was Conferred “General Officer
Commanding – In – Chief (Western Command)
Commendation card for distinguished services
and commitment towards higher dental
education in Army Dental Corps” For her

profession and Dental Education*

*Dear Mam, You made every IOS Member proud
with your exemplary achievement, service and
the greatest honour.*

*This is the first time ever that a civilian has been
bestowed with this honour. The investiture
ceremony was held on 11th December, 2021.
During her 35 years of teaching experience, she
has been conferred with many academic
achievements and awards. She has also been
selected for Oral Research Presentation at AAO
2022 [Miami, Florida]. Internationally only 28
papers have been selected and this is the fourth
time she has received this invitation [earlier ones
being at Los Angeles, Washington and Hawaii].
She is also the recipient of prestigious
International Fellowship for Senior Biomedical
Scientist which was conferred to her by ICMR.*

Banaras Orthodontic Study Group Event

26th November 2021

Reported by, Prof TP Chaturvedi

Convener of Banaras Orthodontic Study Group (BOSG)

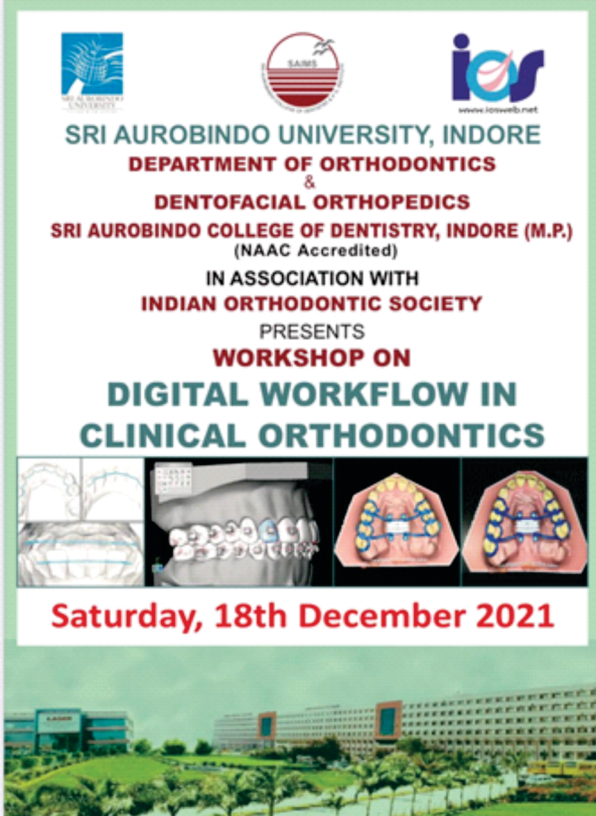

Head, Division of Orthodontics, Faculty of Dental Sciences, BHU, Varanasi

Banaras Orthodontic study group organized a seminar on 26th of November, 2021 at Division of Orthodontics and Dentofacial orthopedics, Faculty of Dental Sciences, BHU, Varanasi-221005. The speaker of the programme was Prof OP Kharbanda presently working for/as Dr CG Pandit National chair conferred by the Indian council of

medical research, at All India Institute of medical sciences, New Delhi. He was former chief of center for dental education and research, former Head of division of orthodontics and dentofacial deformities, AIIMS, New Delhi. Topic of presentation was "Non Extraction approach of Orthodontic treatment". He explained to us the basics of Molar Distalisation with a detailed presentation of techniques used in the past with recent advances. He had explained the device which not only allows distalisation of both maxillary 1st & 2nd molars with proper force and direction but also helps to accommodate the posterior teeth with proper growth of maxillary tuberosity. He also explained

about the utility of third molar during non extraction mode of orthodontic treatment. The content of seminar was filled with innovative ideas for contemporary orthodontics. At last doubts of orthodontics academicians, practitioners and students were cleared by him. The chief guest of the program was Padmasri Prof S Chooramani Gopal, President National Academy of Medical Sciences and former Vice Chancellor, K.G. Medical University Lucknow. The welcome address was delivered by Prof TP Chaturvedi, Convener of Banaras Orthodontic Study group. The speaker was introduced by Prof Ashish Agrawal & gratitude of appreciation was given by Prof Ajit Vikram Parihar. It was well attended by students & participants of Banaras orthodontic study group. The programme was endorsed by & Indian Orthodontic Society. The conveners of BOSG also thank the office bearers of IOS for support and encouragement.

Indore Orthodontic Study Group WORKSHOP ON DIGITAL WORKFLOW IN CLINICAL ORTHODONTICS

18th December 2021, Sri Aurobindo College of Dentistry, Indore
Reported By Dr Ashish Garg

On 18th December 2021, Saturday, the Department of Orthodontics and Dentofacial Orthopedics of Sri Aurobindo College of Dentistry, Indore; organized a workshop on 'DIGITAL WORKFLOW IN CLINICAL ORTHODONTICS', under the aegis of Sri Aurobindo University and Indian Orthodontic Society. The workshop regaled 60 delegates reporting from 9 different colleges statewide.

demonstration of a digitally designed appliance. This helped in spreading awareness of the dawn of digital ware and artificial intelligence in the field of Orthodontics.

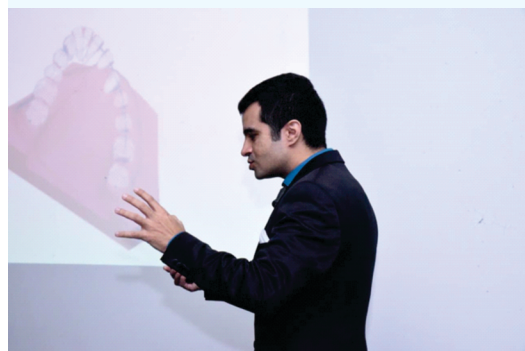

The event started with an inaugural ceremony at 9.30 a.m., by inviting on dais the Chief guests of the event, Dr. Manjushree Bhandari (Chancellor SAU) and Dr. Vinod Bhandari (Founder Chairman of SAIMS) alongwith Prof. (Dr.) Jyoti Bindal (Vice Chancellor SAU), Dr. SS Bose (DME SAIMS), Dr. Kanteswari I K (Principal, SACD), Dr. Ashish Garg (HOD SACD). The event was also graced by the guest of honor Dr. Ashok Khandelwal (EC member of DCI), a special guest Dr. Chandresh Shukla (DCI Member), and the brilliant key note speaker Dr. Digant Thakkar. The dignitaries were invited for lamp lightening in praise of the deity, Saraswati, alongwith a mellifluous rendition of Saraswati Vandana. This was followed by a greeting from the Organizing Chairman of the event Dr. Ashish Garg, the intellectual and driven Head of the Department of Orthodontics and Dentofacial Othopedics. Next, a warm and filial welcome speech was delivered by the dashing, dynamic, mastermind Founder Chairman of SAIMS, Dr. Vinod Bhandari. His welcome note was followed by some words of wisdom by the acute, genial and popular Member of DCI, Dr. Chandresh Shukla. The final note was struck by the astute and gracious, Chancellor of SAU, Dr. Manjushree Bhandari.

The warm note of welcome from the hosts was followed by a felicitation ceremony; mementos were presented as souvenir from the event and also to convey appreciation and gratitude for the support of the Chief guests and the attending dignitaries from various colleges.

Then the curtain to the event was raised with a rapturous session of lectures by the savvy key note speaker of the event, Dr. Digant Thakkar. The master himself delivered mind blowing presentations and lectures on Direct printed orthodontic appliance, Direct indirect bonding system and customized orthodontic brackets, digital lingual bonded retainers, MARPE (Miniscrew Assisted Rapid Palatal Expander) and in house aligners. This was followed by a live demonstration of the MARPE appliance insertion, in a patient. The entire session was an interactive course, encouraged by a question and answer session held alongside with the lectures and live demonstration. The whole session kept the audience at the edge of their seats and left them awestruck.

The mind blowing session eclipsed with a valedictory function celebrating the grand success of the event and appreciating the enthusiastic participation of the delegates and the efforts of the organizing team. The event was widely received and commended to be a very gratifying experience, with the flux of knowledge in the air. The workshop served to broaden the horizons of attendees and their enthusiastic participation rendered the event with a roaring success.

BHUBANESWAR ORTHODONTIC STUDY GROUP PRESENTS

Orthodontics: Basic Aspects and Clinical Considerations

Chief Guest :
Prof. (Dr.) U.S. Krishna Nayak
Principal
ABSMIDS-NITTE UNIVERSITY

Venue :
Hitech Dental College and Hospital

Time: 9:00am to 1:30pm

Registration charges:
Rs/- 800 for LM
Rs/- 500 for SLM

GUEST SPEAKER DR. ROOPA SIDDEGOWDA MDS, PhD

**READER, DEPARTMENT OF ORTHODONTICS
GOORG INSTITUTE OF DENTAL SCIENCES, VIRAJPET
KARNATAKA**

Dr. Roopa presently working in the capacity of Reader in Coorg Institute of Dental Sciences, Virajpet, Karnataka is the first PhD holder from Rajiv Gandhi University of Health Sciences, Karnataka.

Graduated from Basu Dental College, Davangere in 2004 and Post-graduated from JSS dental College, Mysore in 2010.

Thereafter pursued PhD from Rajiv Gandhi University of Health Sciences, Karnataka in 2015.

Have authored various Publications in National and International Journals.

Presented Papers and Posters at National Conferences. She had been an invited speaker in 3rd International Orthodontic Conference held at Kathmandu, Nepal, 2015.

TOPIC OF PRESENTATION: INTRODUCTION TO RESEARCH AND RESEARCH METHODOLOGY

ABSTRACT

It all begins at the beginning. Searching for new things requires in depth knowledge. Research is the systematic investigation into and study of materials and sources in order to establish facts and reach new conclusions. Conducting research allows us to pursue our interests in a way that hones our problem solving skills and teaches us to learn something new. The objectives of this presentation would be to orient the postgraduate students to the field of research, a briefing on research methodology, epidemiology and experimental designs.

Prof. & HOD Dr. Smruti Nanda Nanda,
Dept. Of Orthodontics,
Institute of Dental Sciences, SOA University

Topic: Biomechanics in orthodontics

Abstract :

The heart & soul of any Orthodontic philosophy is the Biomechanics. Understanding the biomechanics comprehensively is the fundamental of any technique used to achieve desired orthodontic goal. In this lecture I shall strive to touch upon the various aspects of Biomechanics from fundamentals to the complicated technique specific particulars.

Prof. Dr. Nivedita Sahoo,
Dept. Of Orthodontics,
Kalinga Institute of Dental Sciences, KIIT University

Topic: MBT Subtype

Abstract :

This presentation aims to describe the MBT appliance with a brief discussion about the other bracket systems. The MBT appliance was introduced by MacLaughlin, Bennett and Trevis in 1996. They claim that the increased palatal root torque in the upper incisors improves upon the under-torqued appearance produced by other prescriptions and the increased labial root torque in the lower incisor counteracts the forward tipping during leveling. The MBT System provides a systematized approach to treatment, one that incorporates time-tested innovation and experience and the development of new methods and technologies.

Bhubaneswar Orthodontic Study Group Event

December 22, 2021

Bhubaneswar

Reported by Convenor, Dr Swati Acharya

The second programme of BhOSG with Prof. Dr. Krishna Nayak Sir as the Chief guest, Prof. Dr. Sangram Patro as the Guest of Honour, Guest Speaker Dr. Roopa Ashok, Speakers Prof. Dr. Smruti Nanda, Prof. Dr. Nivedita Sahoo, seniors, colleagues and Post graduate students.

Special thanks to Dr. Sumita Mishra for her invaluable support along with the entire team of Hitech Dental College for organising the programme meticulously.

A special interaction with Associate Prof. Dr. Roopa , PhD by Bhubaneswar Orthodontic study group where she gave her view points regarding the ease, difficulties to work on research and her biggest obstacles while pursuing her PhD.

Dr. Roopa mentioned that balancing work and family was her biggest challenge. Her passion for accomplishing PhD was her driving force. She mentioned that less than 30 percent of researchers worldwide are women. Research is easy when it is well documented at the same time it is even difficult as we need to find new ideas that haven't been tried and solutions that no one else has found.

Madras Orthodontic Study Group Presented CLINICAL ENRICH

December 26, 2021

With Dr. Sumit Yadav MDS, PhD as the Speaker

Reported by Convenor, Dr Edeinton Arumugham, MOSG

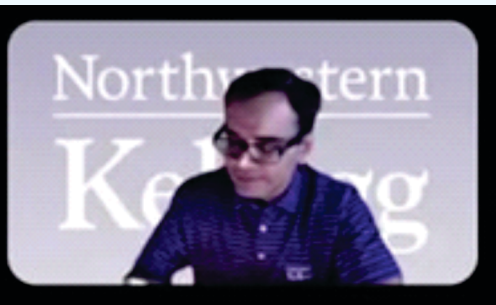

MOSG initiated an excellent continuous learning program in association with IOS "The Clinical Enrich". The main motto being enriching the post graduates and practitioners with continuous update on clinical aspects of orthodontics along with recent advancement. Another speciality of the program is giving opportunities for young masters in the field in addition to the stalwarts. The very second edition happened successfully on 26th December, 2021.

Our speaker was Dr. Sumit Yadav MDS, PhD, an internationally renowned speaker. The topic covered was "Management of vertical problems". It went successful with excellent case array by the speaker. The session was moderated by DR.NRK sir and DR.Ravindra Nayak Sir. They did a splendid moderation with pertinent review and evidence based analysis. It was indeed fortunate to have our IOS secretary DR. Sridevi mam for her constant source of encouragement.

The program was attended by more than 250 postgraduates nationwide. On the whole it was a great show and excellent team work by Dr.Rekha Bharadwaj as the MC., Dr.Umarevathi, Dr.Sumanth Kumar, Dr. Annapoorna and team.

आयोजन स्टीडी ग्रुप की ओर से आयोजित सीडीई में अलग शहरों से ओर्थोडॉन्टिस्ट ने दिए सुझाव

चौदह साल की उम्र में ठीक हो सकते हैं टेढ़े दांत

जगरण संकटपात्र, लुधियाना : लुधियाना ओर्थोडॉन्टिक (स्पेशलाइज्ड डेंटिस्ट) स्टीडी ग्रुप की ओर से सोमवार को सीडीई का आयोजन किया गया। इसमें राज्य के अलग-अलग शहरों से ओर्थोडॉन्टिस्ट शामिल हुए। सीडीई में मुख्य वक्ता के तौर पर इंडियन ओर्थोडॉन्टिक सोसायटी के सौनिवर सदस्य डा. सौरभ लाम्हा ने भी शिरकात की।

उन्होंने ब्रेसिस को नहीं तकनीक डेमन सिस्टम ओएसको के बारे में बताया। उन्होंने कहा कि वह तकनीक टेढ़े दांतों को लो फोर्स से स्ट्रेटमेंट करने में कामयाब है। टेढ़े दांतों का सही समय पर ओर्थोडॉन्टिक स्पेशलिस्ट से ही ट्रैटमेंट करवाना चाहिए। इस ट्रैटमेंट के बाद स्मॉल नेचुरल तरीके से अच्छी हो जाती है। वहीं लुधियाना ओर्थोडॉन्टिक स्टीडी ग्रुप के कन्वीनर और बाबा जसवंत सिंह

लुधियाना ओर्थोडॉन्टिक (स्पेशलाइज्ड डेंटिस्ट) स्टीडी ग्रुप की ओर से सोमवार को होटल रिजेंट बलासिक में आयोजित सीडीई के दौरान जानकारी देते हुए डा. संजय लाम्हा, डा. अर्जुन जयसवाल, डा. अमनप्रीत सिंह, डा. रिशी सेठ व जेडी समोयल ● गैलरी

रेंटल कालेज के हेड व प्रोफेसर डा. अर्जुन जयसवाल ने बताया कि लॉग वेंट सीधे करवाने के लिए काफी देर बाद स्पेशलिस्ट के पास पहुंचते हैं। तब दांतों को सीधा करने में ज्यादा समय लग जाता है। टेढ़े दांतों और जबड़ों की समस्या को हल करने का सही समय 11 से 14 साल का है।

इंडियन ओर्थोडॉन्टिक सोसायटी के अध्यक्ष डा. श्रीकृष्ण चालसानी और उपाध्यक्ष डा. सबनीत सिंह ने वीडियो कॉन्फ्रेंस के जरिये सभा को संबोधित किया। ग्रुप के को कन्वीनर डा. अमनप्रीत सिंह ने बताया कि कुछ समस्याएं जैसे कि उमर और नीचे के जबड़ों का आपस में मैच न होना एक हड्डि को बनावट की समस्या है। इसे ओर्थोडॉन्टिक स्पेशलिस्ट सही समय

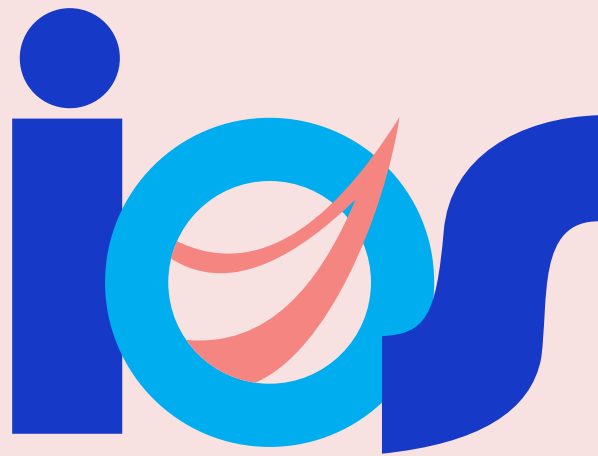

सलाह

- दाँतों का हथिया खरी रफ़्तार पर ओर्थोडॉन्टिक स्पेशलिस्ट से ही ट्रैटमेंट करवाना चाहिए
- समय पर दाँतों का इन्फेक्शन करवाने से बचाव जा सकते हैं खराब हो से दाँत

पर मायो फंक्शनल अपलार्व्स टेकर सुधार कर सकते हैं।

जालंधर से आए ग्रुप के को कन्वीनर डा. रिशी सेठ ने कहा कि आजकल मेटल और दाँत के कलर के ब्रेसिस दाँतों को सीधा करने के लिए उपलब्ध हैं। ब्रेसिस में जो तार लगती है, वह धीरे धीरे दाँतों को कलर की ओर आने लग गई है। इस दौरान डा. अंजलि सिंह मौजूद थीं।

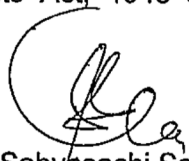

*Indian Orthodontic Society
Thanks and Appreciates
Dental Council of India for taking stringent
action and an Iron Hand against private companies
involved in
Direct to Consumer Aligners*

PUBLIC NOTICE

It has come to the notice of the Dental Council of India that some of the private companies, by engaging dentists, offering in-home services to the patients bypassing the professional expertise of the Dentists and functioning on aggressive marketing violating the provisions of Clinical Establishments (Registration and Regulation) Act, 2010, Dentists Act, 1948 and Revised Dentists (Code of Ethics) Regulations, 2014. Therefore, such companies, all dentists and the public at large, for their dental treatment, be advised as under:-

1. The dental treatment shall be given to the patient by the registered dentists in his / her clinic / hospital.
2. The scanning of teeth of patients shall be performed by registered dentists only. Scanning of teeth performed by any non-dentist will be a gross violation of Dentists Act, 1948.
3. Registration of dentist must be mentioned / displayed or provided at all Web Portals of the company / clinic.
4. Dentists should provide highest quality of treatment for better outcome, providing/endorsing treatment with proper examination, tests, thorough diagnosis and treatment planning, with proper follow up for patient care.
5. Biomedical standard waste management / sterilization protocol shall be followed by all dentists.
6. Companies shall not project their **aggressive advertisement campaigns**, to lure common man for getting dental treatment.

All State Dental Councils / Tribunals are hereby directed to take necessary action against such companies / dentists those are violating the provisions of Clinical Establishments (Registration and Regulation) Act, 2010, Dentists Act, 1948 and Revised Dentists (Code of Ethics) Regulations, 2014, as per law.

(Dr. Sabyasachi Saha)
Secretary
Dental Council of India
