22nd IOS PG Students' Convention

15th - 18th February, 2018

D Y Patil Deemed to be University, School of Dentistry proudly hosted the 22nd IOS PG Students' Convention, 2018 from the 15th to the 18th of February, 2018. The grand inaugural ceremony, in the most beautiful ambience of D Y Patil Stadium, had Dr. Dibyendu Mazumder, DCI President as the Chief Guest of the ceremony. Hon' Dr. Vijay Patil, President of D Y Patil Group, the Chief Patron and the Guest of Honor, Mrs. Shivani Vijay Patil.

Humanism is the new world revolution with an agenda that demands we seek internally to our own knowledge and experiences to redefine the world. With this thought, the convention brought together some of the most distinguished experts in the field of Orthodontics and Dento-facial Orthopedics from and abroad, to share their experiences, knowledge and research on all the relevant aspects of Orthodontics along with super packed interactive Pre-Convention courses to an audience filled with young, curious orthodontic minds.

It was a four-day splendor of entertaining cultural activities along with performances from Comedy Central stand-up comedian Gaurav Kapoor and ace mimicry artist Dr Sumedh Shinde, extensive sports events conducted at the DYPatil Sports Stadium and trade exhibitions that were stacked with all the latest clinical materials and armamentarium. Cricket match between IOS Executive member vs Conference Organising Committee, was also played under the floodlights of the stadium.

The convention was organised by Dr. Vivek P Soni, Organizing Chairman, Dr. Nitin Gadhiya, Organizing Secretary, Dr. Sandeep Sharma, Scientific Convener and Dr. Sameer Narkhede, Treasurer along with staff and Post Graduate Students of the Department of Orthodontics. The entire Organising Committee and crew was really thankful to Hon' Dr. Vijay Patil, President D Y Patil Group for all the support and facilities extended to host this convention.

BEYOND ORTHODONTICS

DR. ARUN'S PHOTOGRAPHY AND VINTAGE CAMERA MUSEUM

It hosts one of the largest collection of vintage cameras and photography equipment in India, comprising of more than 1500 antique and vintage cameras, with cameras from 1870 onwards. It is the personal collection of Dr. A. V. Arun, curated over a period of more than 25 years from all over the world. The passion for cameras started in 1997 when he came across two damaged Yashica TLR cameras on the platform shop in a flea market in Chennai. Trying to understand the mechanism, he went through the history of the cameras and got hooked.

Cut to September 15th 2008. Dr Arun's collection of camera was covered in a special edition of The Hindu news paper under the title 'Things People Collect'. This article brought out the collection onto center stage and also fueled a massive interest in public to know more about the collection and to see the rare cameras that were covered in the article.

Dr AV Arun's Collection of vintage cameras have been a centre of attraction at all the editions of World Camera Fair from 2013 to 2017.

Is your braces doctor an Orthodontist ?!

Before
braces

After
braces

**For a lifetime of healthy beautiful smile,
ensure that it is made better by an Orthodontist
endorsed by Indian Orthodontic Society.**

Orthodontic/braces specialists receive a 2 to 3 years of specialized education and training at a Dental College, recognised by the Dental Council of India, in addition to the 5 -year basic dental training, training to learn the correct method/s to align and straighten teeth, control and utilize facial growth, enhance smile esthetics and jaw function. Only those who successfully complete this formal education program may call themselves "Orthodontists," and only those orthodontists can be members of the Indian Orthodontic Society, the national association of qualified orthodontists in India. Selecting a member of the Indian Orthodontic Society for your orthodontic care is your assurance that the doctor is a person most qualified for the job at hand.

FOR BRACES NOT JUST ANY DENTIST INSIST ON AN ORTHODONTIST

It is normal to visit a dentist whenever you have issue with your teeth. However, when aware that you have a skin issue, don't you seek a skin specialist, or not? Likewise with teeth or jaw alignment issues, you will need the expertise of specialists. If teeth are jutting out too far forward, are crooked, have gaps in between, the correct person to approach is an Orthodontist.

Orthodontists, the braces specialists, receive an additional 2 - 3 years of full time training after graduating as a general dentist, from a Dental council recognised dental college, making them most knowledgeable in the science and art of orthodontic tooth movement while rendering superior level of care in beautifying smiles, naturally. The additional full time training makes the orthodontists an expert in solving complex teeth structures in all its various stages. Claims of rendering at par orthodontic treatment after short term part time courses in orthodontic education by dentists, remain just that . . . Claims !

In the best interests of your general health, seek an Orthodontist when looking for teeth alignment solutions.

The magic of braces

Ashrita's passport pictures always had her teeth showing. Her parents' decision to get that corrected with an Orthodontist gave her a new found confidence.

Celebrating Life

Tanaaz Irani

Actor, Director

FULL NAME: Tanaaz Irani

BIRTHDAY IS ON: April 8

ZODIAC SIGN: Aries

PLACE OF BIRTH: Mumbai

SCHOOLING AT: Cathedral & John Connon School, Mumbai

COLLEGE: HR College, Mumbai

PROFESSION: Actor, Director, Mother

WHAT IS THE BEST YOU LIKE ABOUT YOUR PROFESSION:

Flexible timings
Get to meet new people
Creative satisfaction
Brings smiles on faces

CURRENTLY:

Director, Actor in a play - "Selfie"
Web series - "Tango with Tanaaz"

YOUR INSPIRATION IN LIFE

Mom - who lived power packed life and brought us up with independence and gave us a foundation to build up upon.

HIGH POINT IN LIFE:

The first play - Bottoms Up
The first serial - Zabaan Sambhal Ke
The first movie - Kaho na ... Pyaar hai

ADVICE YOU WISHED HAD RECEIVED

Buy Property (in the 90s or early 2000s)

ADVICE TO YOUNGSTERS:

Do everything for the right reasons.
Follow your dreams.
Do not make your story like someone else's.
Make mistakes, but learn to get back up fast.

FUTURE PLANS:

Make a difference in the life of the common man and empower women, in whatever best way I can

WHY, IN YOUR OPINION, IS A GOOD SMILE IMPORTANT?

A good smile reflects in your eyes

WHAT DO YOU KNOW ABOUT ORTHODONTIC TREATMENT

Will be taking my older kid for an orthodontic consultation now, and will be taking the younger one next year, when she turns seven.

ONE PHRASE THAT DESCRIBES YOU BEST.

Living life the fullest

STRATEGY IN CRISIS:

Be Calm and beat it at the base

CITY: Mumbai

TRAVEL DESTINATION:

Los Angeles, London

FOOD: Thai curry, Biryani

SONG: I will survive by Gloria Gaynor

MOVIE: Beaches

Small appreciation, make big creation

Every patient deserves a beautiful smile and to reach this goal we always strive for excellence in our day to day practice, At the same time, orthodontic speciality awareness is the individual's responsibility too, . Every patient is a valuable person, customer, as well as, a long time asset for us. As a gesture of appreciation towards his/her support, appliance maintenance, keeping appointment schedules and co- operation, the last debonding /debanding appointment can be made awesome by gifting each patient with a token of appreciation, a coffee mug, printed with patients smiling photo and name on one side and clinic name, logo on another.

Tamil Nadu Southwest Orthodontic Study Group Activity

Tamil Nadu Southwest Orthodontic Study Group conducted one day CDE program at Salem on 4th March 2018. Dr.Gnana Shanmugam from Sree Balaji Dental College, Chennai delivered guest lecture titled "TMJ considerations in Orthodontics". He also conducted a live demo on facebow transfer for CR-CO discrepancy, Orthognathic surgery for splint construction. Dr.Kuldeep Dmello from KD Dental College, Mathura delivered guest lecture titled "Dental Photography" with live demo for intra & extra oral photography. More than 25 registered participants form Salem, Erode, Nagarkovil & Thirunelveli attend the CDE program. The program was inaugurated by Dr. M. Vadivelkumar, Director Indian Board of Orthodontics. Convenors of TNSWOSG Dr. Sarar Moses, Dr. Sabarinathan & Dr. Dhivakar Selvaraj informed that the event was well received by the participants. Following the event, annual AGM of the study group was conducted.

Dear friends and colleagues,

The highlight of the month of February has been the 22nd IOS PG convention held at the D.Y. Patil Deemed to University's School of Dentistry, Navi Mumbai. Dr. Vijay Patil, Mrs. Shivani Patil, Dr. Vivek Soni and his organising & scientific team and the management of the University went out of their way to make this Convention a truly unique and magnificent event.

The convention saw a record number of registrations. Majority of the students carried away happy and good memories. If any faced hardships, then as President of IOS, I would like to apologize to them and assure them that IOS HO takes due note of their grievances and enforce corrective measures so as not to repeat, at the next PG conventions.

At the convention, a one-on-one fruitful meeting regarding unauthorized orthodontic courses with DCI President, Dr. Mazumder could materialise. On behalf of the IOS, a heartfelt thanks to Dr. Vijay Patil for his gesture of allowing us to play a T20 exhibition cricket match between the IOS President's Eleven and the COC Eleven, under floodlights, at the D.Y. Patil international Stadium.

We also had the 2nd IOS EC meeting on the 17th of February and am happy to say that the subcommittees are working diligently and IOS seems to be on the right track.

God bless!

Dr. Shailesh Deshmukh
President

Dear Members,

The IOS Times continues to connect us and showcase the importance of Orthodontics to general public. Please do share the copy of the IOS times and all its social media posts on yours - Facebook, Instagram, Twitter, Tumblr, Pintrest. Please tag your patients and their friends, too.

I continue to stress the fact that an orthodontic patient is the best form of awareness of Orthodontics. A satisfied orthodontic patient will not only get the orthodontist more patients but also recommend orthodontics to their other friends and relatives. Treat every Orthodontic case just like you would, for your MDS exams. The same standards, the same dedication. It is that one moment in your Orthodontic career when you decide a mild over jet or crowding is okay when you deband because the patient was seemingly satisfied, that sets you spiral downwards. Let that moment never trap you. Strive for perfection. You will be amazed at how much time Orthodontic practise will keep you engaged and how satisfying the Orthodontic career is.

Continue learning. Keep updating. Despite my nearly two decades of Orthodontic practise, I still feel the need to learn a lot to give to my patients. The future of our profession is in your hands, no general dentist or other dentists trained in short courses can ever come close to the level of orthodontic care we can give.

Go ahead and lead the show! Be the best!!
Best wishes

Dr. Deepak Chandra
Honorary Secretary

Dear members,

Old order changeth yielding place to new. Indian Orthodontic Society is at the cusp of ushering in a new era. Shortly, announcements will reach you proclaiming the admission of non-orthodontist specialists to IOS endorsed programs.

General dentistry and the various other specialties of dentistry have grown by leaps and bounds in the last few decades. It is imperative that we keep ourselves abreast with the latest in the non-orthodontic dental fields as well, if we really strive to give the best possible results to our patients.

Whether or not, one chooses to practice anything else beside orthodontics is the individual's prerogative. However, the assimilation and collation of knowledge must happen with all, so that the one who approaches you, seeking a healthy, beautiful smile, gets the best treatment, irrespective of the fact whether, orthodontics was a part of the process or not.

Best wishes

Dr. Biju Abraham
